01

Jalour Developments is the development arm of Al Jalal Holding, an Egyptian real estate group specialising in commercial and administrative property.

Since its establishment in 1985, the Group has delivered residential, administrative, commercial and industrial projects in Egypt and beyond.

Under the Jalour platform, the Group brings development, project delivery and property management together in one corporate structure, with a focus on quality of delivery and long-term stewardship of the assets it creates.

ABOUT JALOUR

02

VISION AND POSITIONING

A new commercial address for El Sherouk.

nurv is conceived as a curated destination for dining, lifestyle, wellness and everyday retail: a place people choose to visit, not simply pass through. The building is planned floor by floor, so that each level has a clear purpose and the whole reads as one unified offer.

The positioning is upscale and calm: clean architecture, generous glazing, an open public plaza and a rooftop running track that gives the building an identity of its own.

For information only. Not an offer or a contract. Visuals are artist's impressions; plans, areas and specifications are indicative and subject to change.

03

THE BUILDING

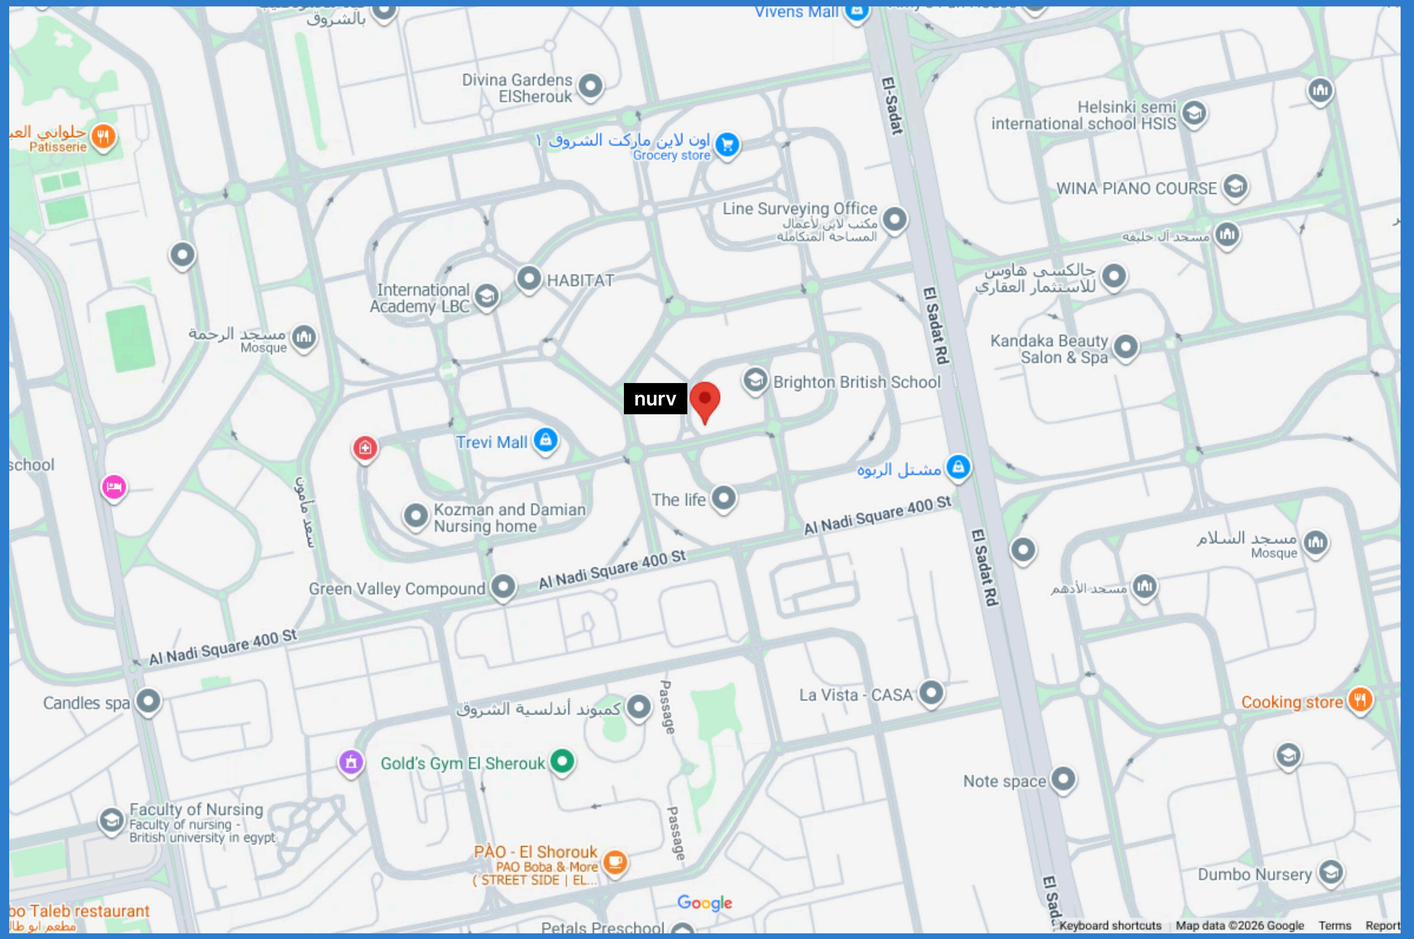

For information only. Not an offer or a contract. Visuals are artist's impressions; plans, areas and specifications are indicative and subject to change.

04

El Sherouk, with main-road visibility.

nurv sits in El Sherouk, on a plot with main-road visibility and walkable access to the main road. An established residential catchment surrounds the site.

Site coordinates: 30.126386, 31.627335

Map: Google Maps (Map data ©2026 Google). The red marker shows the site.

30–40 m
Road frontage, approximately

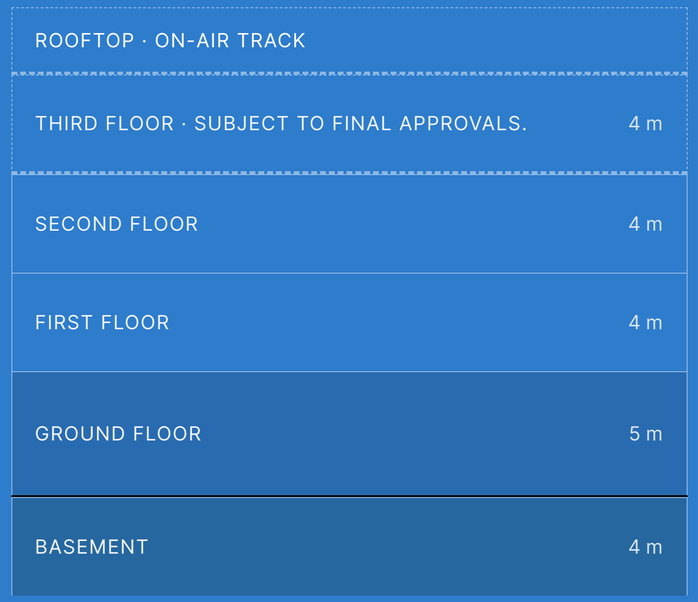

0.6 km
La Vista CASA residential compound, approximately

0.8 km
Street Side Mall, approximately

Walkable
Access to the main road for pedestrians and vehicles

LOCATION

05

Schematic stacking; floor heights drawn to scale.

LEVEL	CONCEPT	GROSS AREA (BUA)	FLOOR HEIGHT
Rooftop	On-Air Track	200 sqm	—
Third floor	Flexible level Subject to final approvals.	675 sqm Subject to final approvals.	4 m
Second floor	The Wellness Arena	675 sqm	4 m
First floor	Lifestyle and Shopping	675 sqm	4 m
Ground floor	The Dining Experience	675 sqm	5 m
Basement	Loading, deliveries and building services	1,100 sqm	4 m

Approximately 11 units per floor on the ground, first and second floors (approximate; the structural grid allows units to be combined or subdivided). Tenant mix is a planned curation and is indicative.

NURV AT A GLANCE

06 · LEVEL BY LEVEL

BASEMENT

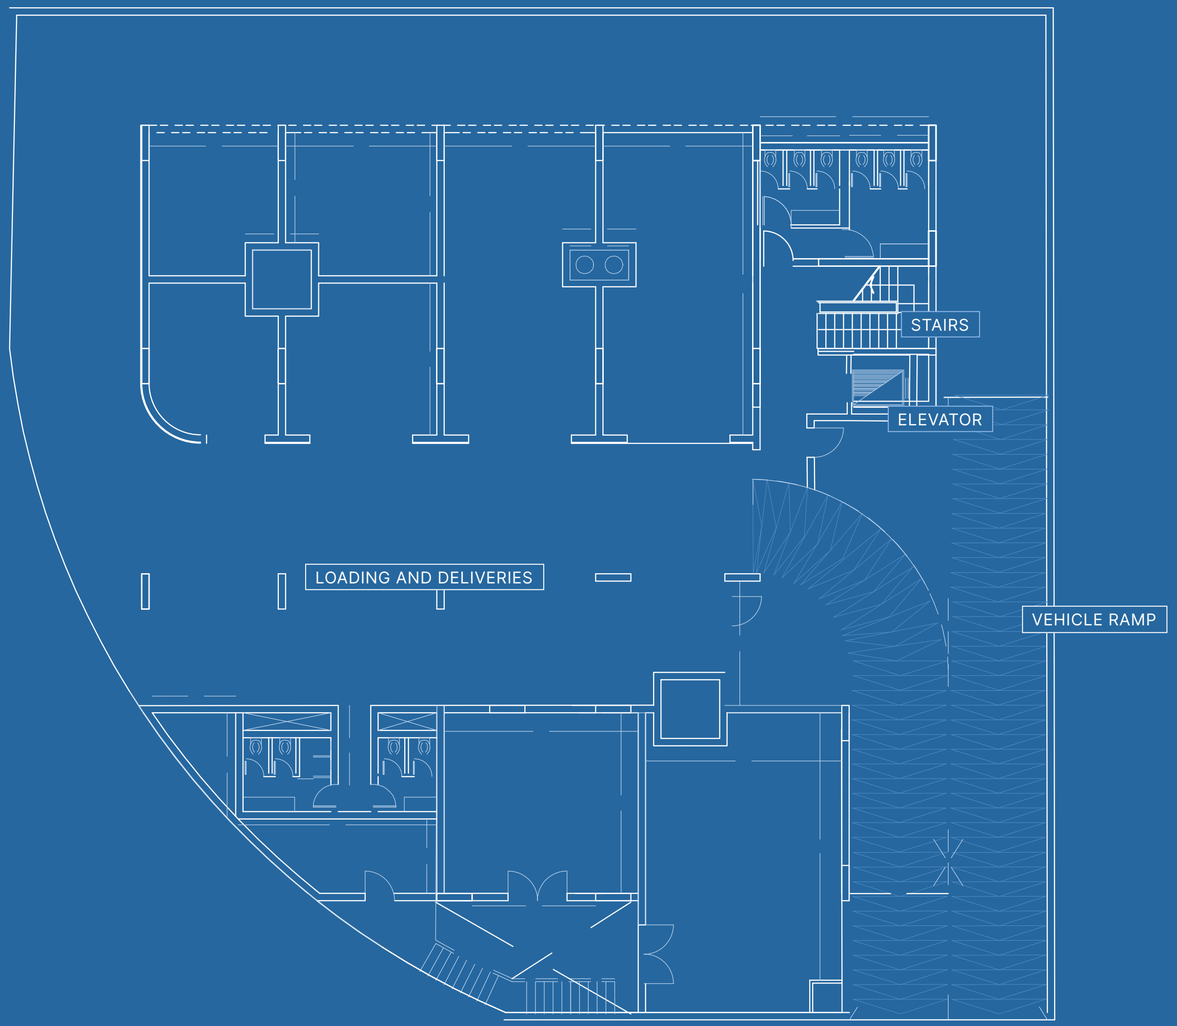

Loading, deliveries and building services

The basement concentrates the building's back-of-house. All loading and deliveries are routed here, kept separate from the customer entrance, and waste is collected by chute to a dedicated basement waste room.

Gross area (BUA)	1,100 sqm
Floor height	4 m
Use	Loading, deliveries, services

Illustrative image of a basement loading bay; not the nurv basement.

Plan redrawn from architectural drawings. Indicative; not to scale.

BASEMENT

06 · LEVEL BY LEVEL

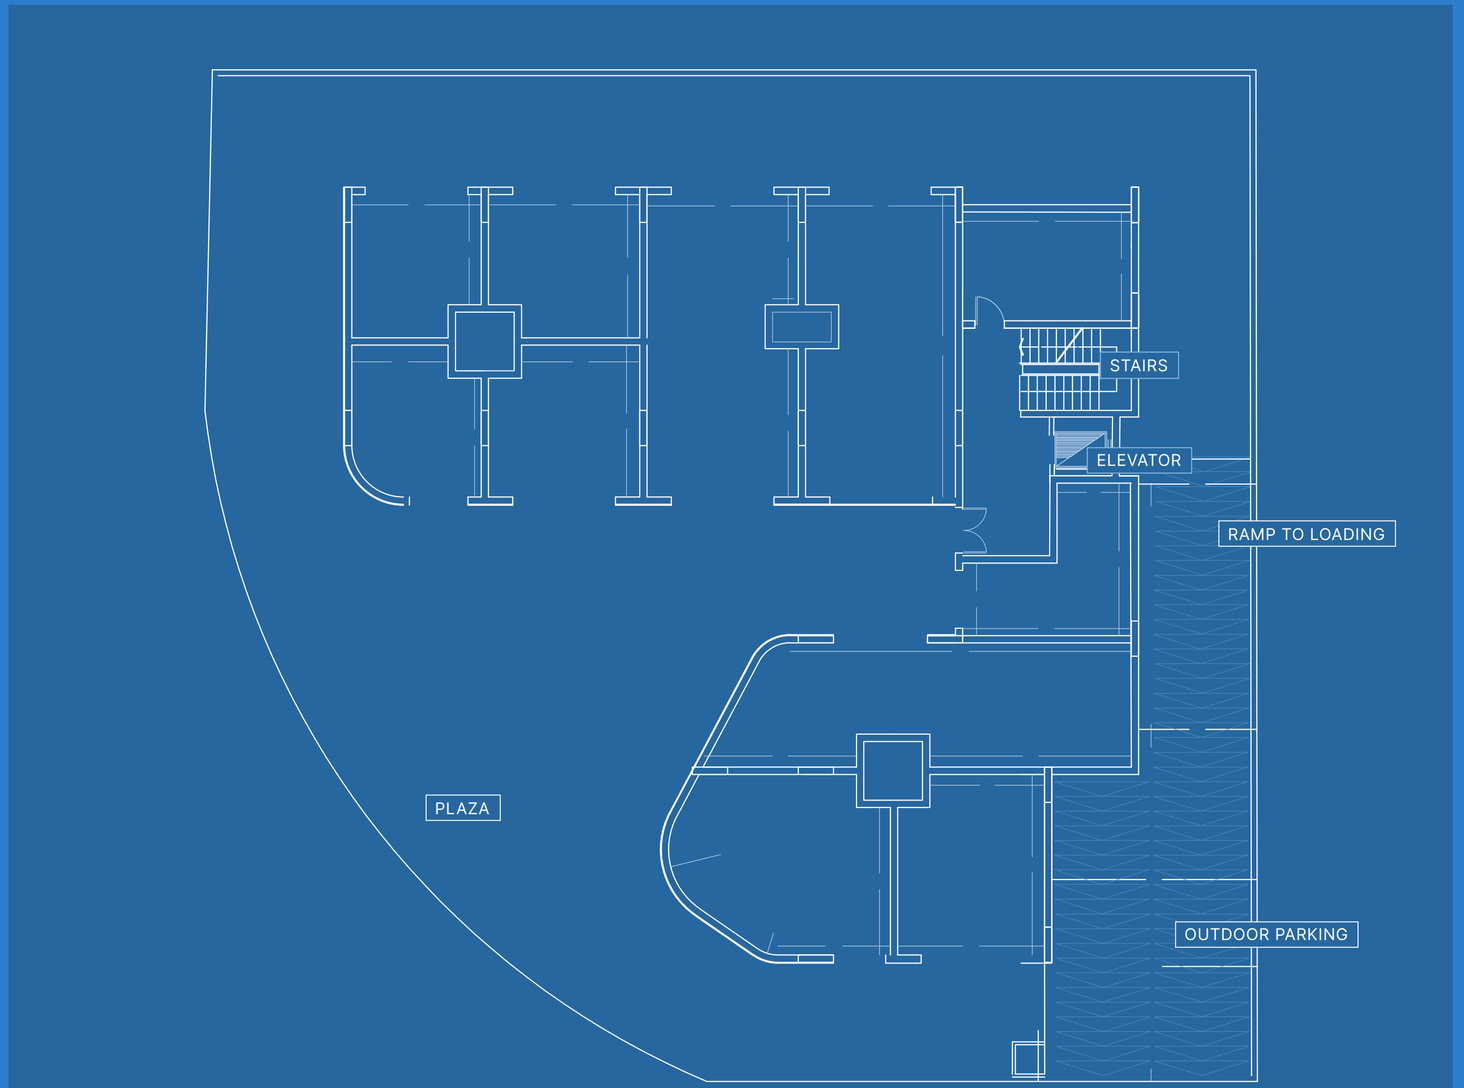

GROUND FLOOR

The Dining Experience

The ground floor is planned for food and beverage, the use that generates footfall and animates the plaza. With a 5 m floor height and purpose-built F&B infrastructure built into the building, the level is set up for dining operators from the outset.

Gross area (BUA)	675 sqm
Floor height	5 m
Units	Approximately 11

Plan redrawn from architectural drawings. Indicative; not to scale.

GROUND FLOOR

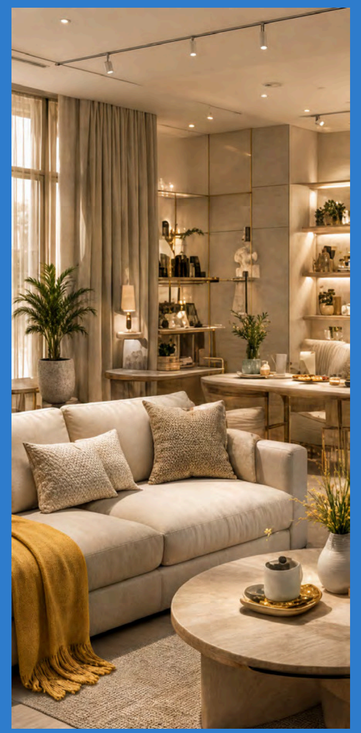

06 · LEVEL BY LEVEL

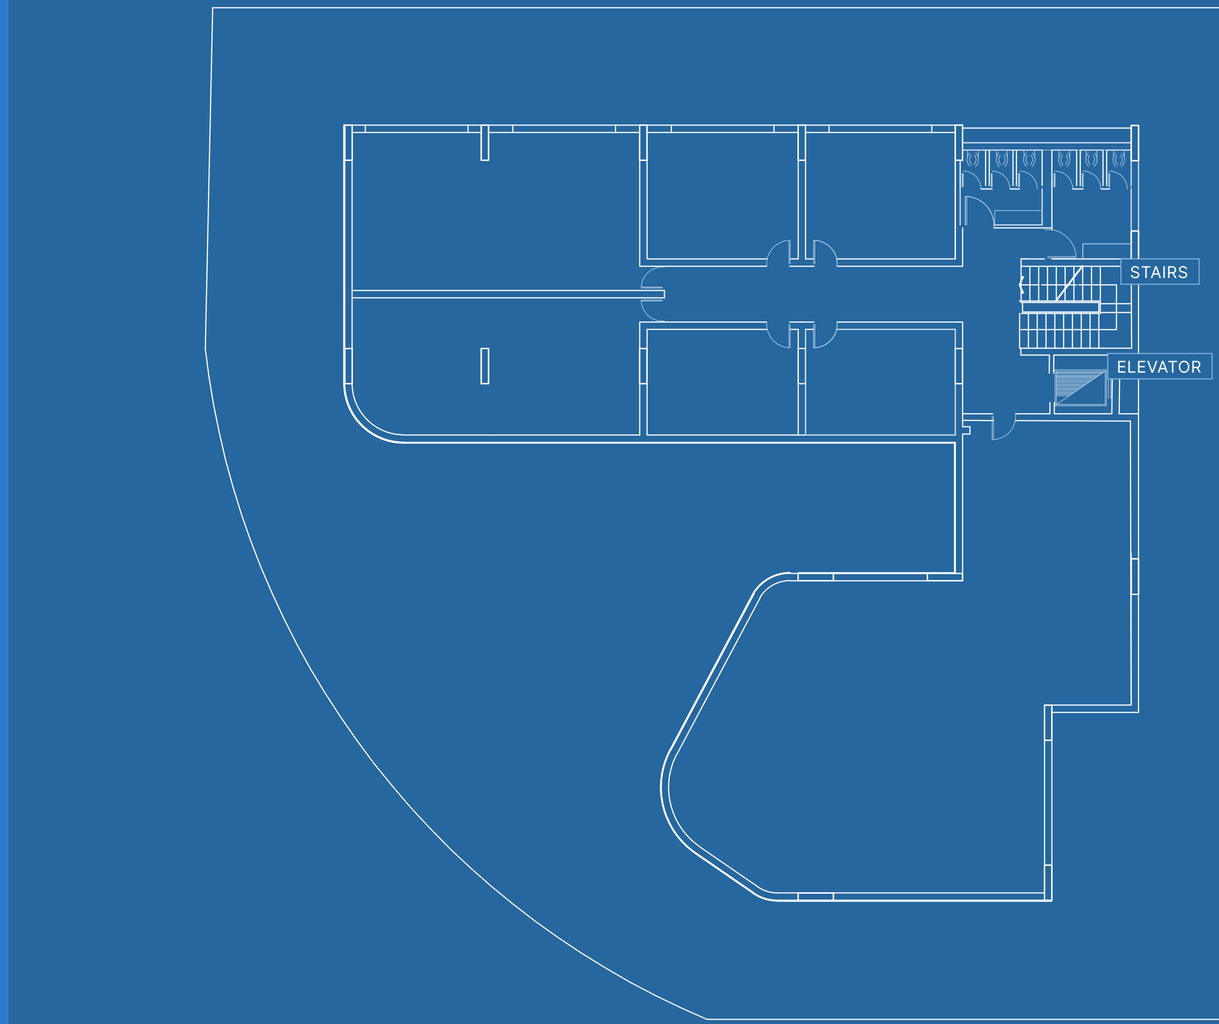

FIRST FLOOR

Lifestyle and Shopping

The first floor is curated for home comfort and lifestyle retail: a considered shopping level that complements the dining below and the wellness offer above.

Gross area (BUA)	675 sqm
Floor height	4 m
Units	Approximately 11

Plan redrawn from architectural drawings. Indicative; not to scale.

FIRST FLOOR

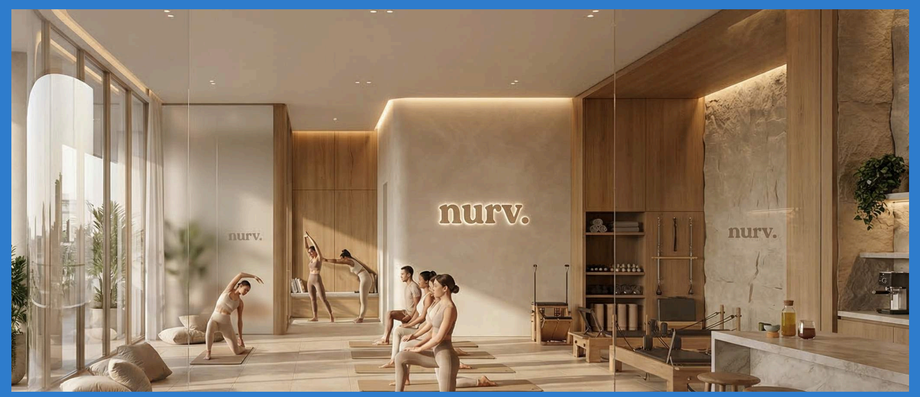

06 · LEVEL BY LEVEL

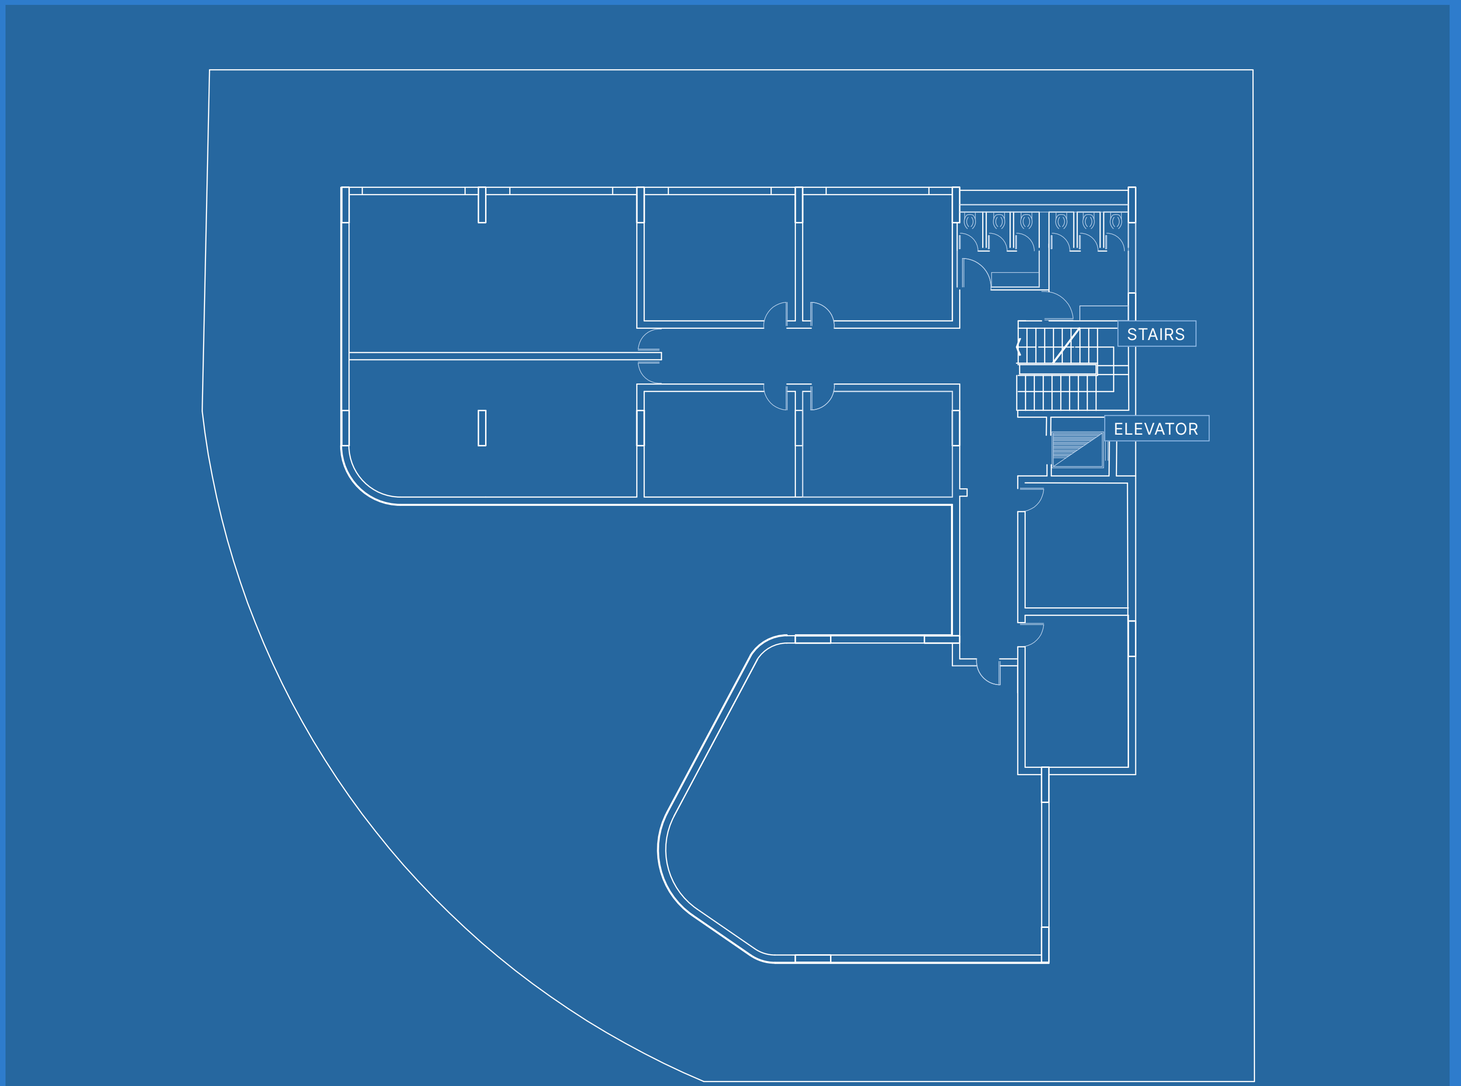

SECOND FLOOR

The Wellness Arena

The Wellness Arena brings fitness, treatment and wellbeing together on one level, conceived as a calm retreat from the street and connected naturally with the rooftop track above.

Gross area (BUA)	675 sqm
Floor height	4 m
Units	Approximately 11

Plan redrawn from architectural drawings. Indicative; not to scale.

SECOND FLOOR

06 · LEVEL BY LEVEL

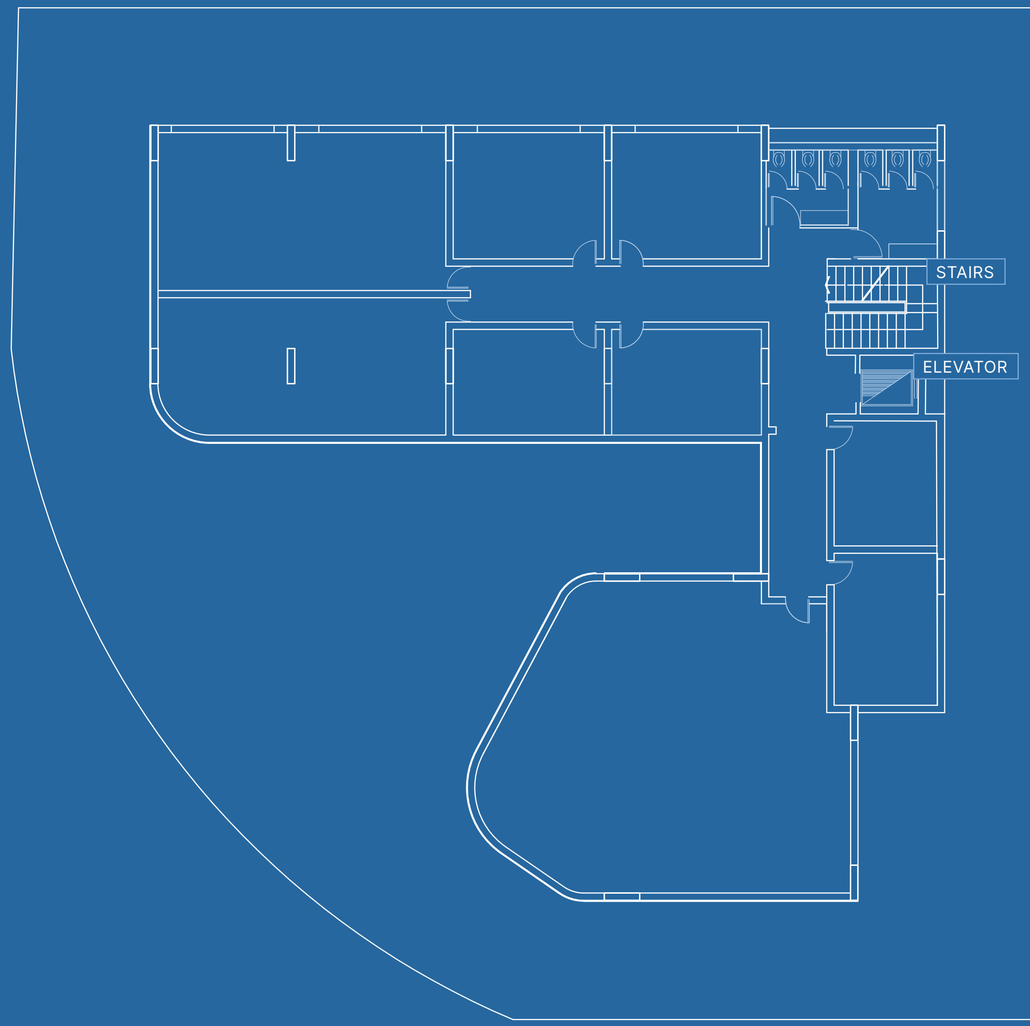

THIRD FLOOR

Subject to final approvals.

A third floor at the same footprint is planned, following the typical layout of the second floor. Subject to final approvals. It is intended as a flexible level, allocated between beauty clinics and co-working depending on demand.

Gross area (BUA)	675 sqm · Subject to final approvals.
Floor height	4 m
Planned use	Beauty clinics or co-working

Typical layout, as the second floor. Subject to final approvals. Indicative; not to scale.

THIRD FLOOR · SUBJECT TO FINAL APPROVALS.

06 · LEVEL BY LEVEL

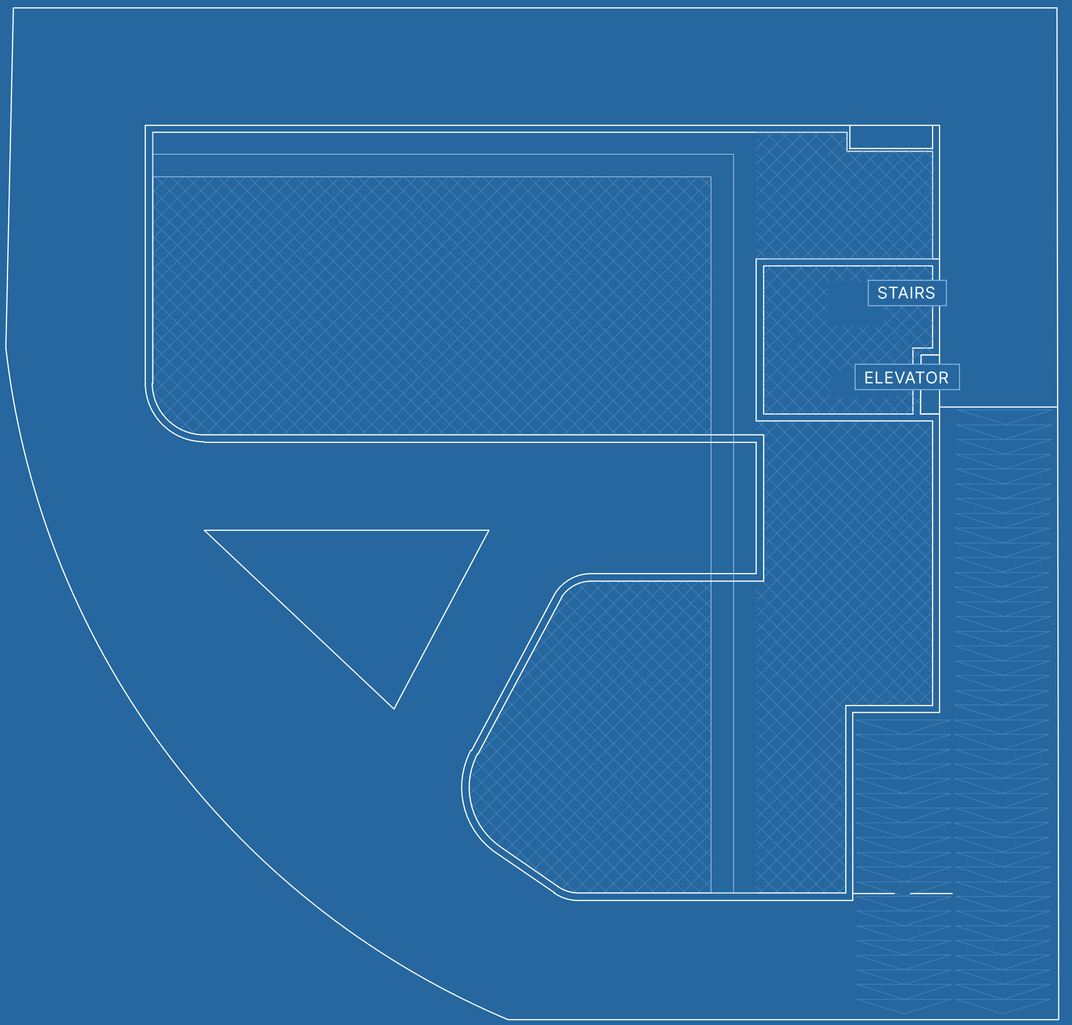

ROOFTOP

On-Air Track

On-Air is a rubberised running track around the full perimeter of the rooftop, lit for evening use. It gives the building a recognisable landmark and extends the wellness offer into the open air.

Gross area (BUA)	200 sqm
Feature	Perimeter running track, lit

Plan redrawn from architectural drawings. Indicative; not to scale.

ROOFTOP

07

ARCHITECTURE

- Predominantly glass curtain-wall façade
- Outdoor plaza at the public frontage
- Flexible structural grid for unit subdivision
- Outdoor parking area

OPERATIONS

- Chute-based, centralised waste management
- Basement loading, separate from the customer entrance
- Rubberised rooftop running track, lit for evening use

BUILDING SYSTEMS

- Purpose-built F&B infrastructure
- Passenger elevator
- Individual split-unit cooling per tenant
- Backup generator

SAFETY AND SECURITY

- Sprinklers and smoke detection
- Fire-rated escape stairs
- Building-wide CCTV
- 24/7 staffed security

DESIGN AND SPECIFICATION

For information only. Not an offer or a contract. Visuals are artist's impressions; plans, areas and specifications are indicative and subject to change.

08

01 A clear destination identity
Floor-by-floor curation (dining, lifestyle retail and wellness) rather than unrelated tenancies.

02 Built for F&B
Purpose-built food and beverage infrastructure, built into the building rather than retrofitted.

03 A landmark rooftop
The On-Air running track is a physical point of distinction for the building.

04 Operational discipline
Centralised waste management, separate basement loading and building-wide security.

05 Adaptable space
A flexible structural grid allows units to be combined or subdivided.

06 A visible location
Main-road frontage within an established El Sherouk residential catchment.

07 Professional management
Day-to-day operations by Meadis Group from opening, with regular reporting.

WHY NURV

For information only. Not an offer or a contract. Visuals are artist's impressions; plans, areas and specifications are indicative and subject to change.

09

MEADIS GROUP

nurv is managed by Meadis Group, Jalour's retail and commercial expertise partner.

Management is structured as a permanent operating function from opening, covering day-to-day building operations, security, waste management and the tenant experience.

Tenant selection follows a planned curation process led by a dedicated tenant mix consultant, so that each floor holds to its intended concept.

- Professional management by Meadis Group from opening
- Planned, floor-by-floor tenant curation
- Building-wide CCTV and 24/7 staffed security
- Centralised waste management
- Regular reporting

MANAGEMENT AND OPERATIONS

For information only. Not an offer or a contract. Visuals are artist's impressions; plans, areas and specifications are indicative and subject to change.

10

Experience across residential, administrative, commercial and industrial development since 1985.

Selected work by Al Jalal Holding includes Nozha Towers in Heliopolis, the Amoun administrative building, the Katameya Business Complex and its later renovation, and a large-scale urban and agricultural development in North Sudan.

Under Jalour, that experience is organised into three specialised businesses:

Jalour Management	Strategy, asset and operational management
Jalour Works	Project management, construction and delivery
Jalour Developments	Real estate development
